

Simile:

The comparison of two sounds, sights, tastes, or feelings

Outside,  
Cars zoom by  
Like pelicans  
Skimming across the water  
For fish.  
The people  
Driving by,  
Are busy bees.  
Like animals  
They have a  
Mile-long checklist  
Of jobs to do,  
Yet no time  
In just twelve hours  
To do them.  
My mind wanders  
Like a newborn child.  
What is so urgent  
That makes them  
Run as fast as a cheetah  
Who just spotted a deer?  
I think,  
What are they running to?  
Or what are they running  
Away from . . . ?  
And if they're running away  
From something  
Why aren't they running faster?

# Simile

## *Depression*

*Depression is black like a hole.*

*It sounds like fingernails scratching  
on a chalkboard.*

*It tastes like spoiled milk.*

*It smells like rotten eggs.*

*Depression feels like being lost in a  
dark cave.*

## BIRDS

# 1 D E

The birds are like  
diminutive musical instruments  
that never stop playing.

Birds are like kites  
that are well manufactured  
Soaring in the sky.

Birds are like little  
stars that brighten up our  
day and the earth.

Birds are like a creation  
that god made  
for us. Birds are  
a little part of  
Mother Nature.
